

HITACHI HEAVY MACHINERY

**LOVEgrove**

COMPLETE CONFIDENCE | EC581 | PGE215460

**COMPLETION DATE:** July 2019 **SERVICES REQUIRED:** / ELECTRICAL / RENEWABLE ENERGY

## DESCRIPTION

Lovegrove was chosen to deliver the additional 80kW solar system, taking the site's overall system capacity to 150kW.

The new system comprises of high-quality products including SMA Inverters and Suntech solar panels. These panels are neatly positioned on the roof of their latest building on site.

This additional solar system was delivered in several stages throughout the construction of the building. It now delivers an average of 370kWh of energy to the site daily.

The project took five weeks to complete on site, post completion of electrical engineering and utility approval processes.
