

# CAPABILITY STATEMENT

**LOVEgrove**

COMPLETE CONFIDENCE | EC581

## *A BETTER WAY*

Lovegrove is a multidiscipline contracting company delivering 'complete confidence' via end to end solutions in electrical contracting, renewable energy, fuel systems, carwash systems, and civil earthworks.

In the six decades since our establishment in 1956, we've assembled a diverse in-house team armed with vast experience, proven knowledge and modern technology, enabling us to handle any challenge with sure-fire certainty.

Today, third generation directors Michael and Tony Lovegrove drive us into the future as a dynamic, fluid company with a rare ability to evolve and adapt to industry demands.

## *SPECIALIST CAPABILITIES:*

- / ELECTRICAL*
- / RENEWABLE ENERGY*
- / FUEL SYSTEMS*
- / CARWASH SYSTEMS*
- / CIVILS*

## *LEAVE IT TO LOVEGROVE*

*WITH LOVEGROVE, THERE'S NO NEED TO SOURCE MULTIPLE CONTRACTORS. LEAVE IT TO US AND WE'LL HANDLE EVERYTHING, FROM CONCEPT TO COMPLETION.*

### *COMPLETE EXPERIENCE*

We've brought together an unrivalled range of skilled professionals, in-house within the renewable energy and energy efficiency industry. By directly employing our entire team, Lovegrove is armed with the onsite diversity required to deliver the complete solution, whatever the challenge.

- Clean Energy Council accredited installers
- Clean Energy Council accredited designers
- Grid Connect battery system designers and installers.
- Offgrid Solar Power System Designers and Installers
- Project managers
- Administrators
- Stores and logistics.

### *COMPLETE KNOWLEDGE*

To evolve and adapt with the industries we work with, Lovegrove invests heavily in information and training.

Our certifications and licences:

- ACAPMA
- Clean Energy Council Accredited company
- Electrical Contractors Licence EC581 (WA)
- PGE 215460 (SA)
- WPCG
- Working towards accreditation to ISO9001, 45001 and 14001.

### *SERVICES*

We are capable in many areas within the energy sector inclusive of:

- Grid Connected Power Systems
- Offgrid power
- Battery systems
- EV Charging systems
- Energy Efficiency

### *COMPLETE TECHNOLOGY*

A highly trained workforce is only as good as the tools at its disposal. To optimise responsiveness and rapidly meet project requirements, we've made a significant investment in plant and machinery, as well as technology that delivers data to our staff in 'real time'.

- All safety information (such as SWMS, JSAs, Prestarts and MSDS)
- Emails, electronic forms and site documentation
- Ability to upload photos directly to head office daily.

### *SEE IT THROUGH*

Every year, Lovegrove successfully completes many projects across Western Australia, South Australia and the Northern Territory. Our success is born from a promise to see every project through to completion, on time, on budget and our goal is to exceed clients expectations.

### *READY TO SEE INGENUITY AT WORK?*

Lovegrove is the reliable renewable energy partner that you've been looking for in WA and SA. Talk to us today to discover how our trained experts can deliver a complete solution.
