

Ready2Wash

Elevate your One1Wash system, with the addition of a seamless Ready2Wash integration. Designed for maximum throughput and low maintenance, this system gives your customers total convenience while giving you full control over your business operations.

Turnkey Mobile Payments

In addition to traditional credit card or cash payments, offer touchless app payments, digital tokens, and loyalty programs right out of the box.

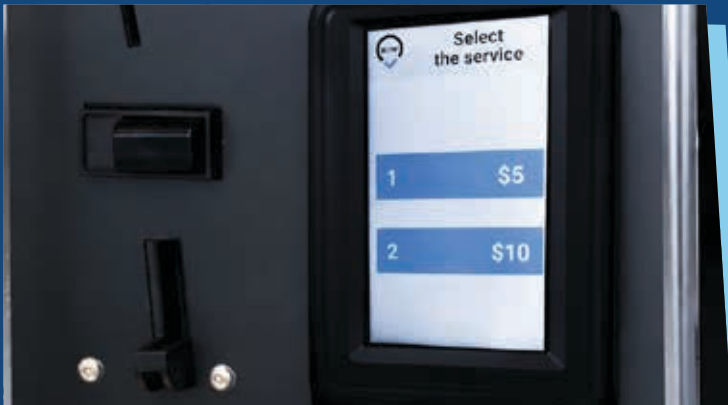

Real-Time Remote Management

Track usage and machine status, be alerted for technical issues, monitor revenue, and manage your wash bay from anywhere via the integrated platform.

Higher Revenue & Retention

Boost customer loyalty with automated promotions, subscriptions, and effortless digital marketing features.

Structure Options

Heavy-Duty Stainless Steel Support Structure

Engineered for long-term durability and peak performance, the One1Wash offers customisable mounting configurations to suit any bay layout. Built to handle heavy daily use, each option is crafted entirely from premium stainless steel for maximum corrosion resistance and structural integrity.

Flexible Pillar Configurations

Choose between Goal Post or Hang Man pillar designs, standing at a robust 4.5 metres in height to accommodate high-clearance vehicles.

Triple Ceiling Boom Integration

Pre-fitted with high-strength stainless steel fixtures and adaptors to support up to three ceiling booms.

Optimised Bay Space

Streamlined design ensures smooth boom movement and maximum working room for your customers.

ADRIATECH
TECHNOLOGY MEETS ART

Compact & Powerful ONE1WASH

Official Australian Distributor for Adriatech

PRESOAK

Loosens stubborn dirt, grime, and road film prior to washing, preparing the vehicle's surface for a deeper, safer clean

Choose between the options

ACTIVATED FOAM

Penetrates surface contaminants using rich foam bubbles, whilst providing the user with a unique visual experience

HIGH PRESSURE WASH

Delivers targeted, high powered water streams to strip away loosened dirt and leftover cleaning agents from every angle

1

2

3

FOAM BRUSH

Combines soft bristle agitation with lubricated foam to gently scrub away embedded residue and tough road grime

4

WAX

Applies a protective, water-repelling shield over the vehicle's finish to enhance shine and guard against harsh environmental elements

5

SPOT FREE RINSE

Uses purified, mineral-free water to eliminate drying marks and leave a crystal-clear, streak-free finish without manual drying

MAXIMISE REVENUE WITH A SPACE-SAVING MANUAL WASH SOLUTION

One1Wash is a compact, high-performance self-service manual wash system engineered for maximum revenue in space constrained sites like petrol stations, retail hubs, detailing bays, and other independent locations. Combining premium Croatian engineering with durable 304 stainless steel construction, it delivers up to 120 bar of washing power alongside advanced reverse-osmosis spot-free rinsing to provide a complete manual wash solution. Tailored for the Australian market, it features integrated contactless payment, with options for mobile app connectivity and cloud based remote monitoring for effortless, round-the-clock site management.
